

Isirv-AVG Press Release Policy (for the USA)

In compliance with the Securities and Exchange Commission's Regulation FD (Fair Disclosure), academic institutions, private organizations, and companies with products whose value may be influenced by information contained in an abstract may issue a press release to coincide with the availability of the abstract to the conference delegates at the start of the meeting (registration). Information additional to that contained within the abstract, e.g., discussion of the abstract done as part of a scientific presentation, is to be embargoed until the start of the relevant scientific session.

Violation of this policy may result in the abstract being withdrawn from the meeting and other measures deemed appropriate. Journalists failing to abide by the embargo may have their press credentials revoked.
