**Immunological Assays and
Correlates of Protection for
Next Generation Influenza Vaccines**

31 March - 2 April 2019

Siena Italy

Dear Colleagues,

Immunological Assays and Correlates of Protection for Next Generation Influenza Vaccines: 31 March – 2 April 2019 Siena | Italy

This conference is the first in a planned series of vaccine group meetings with a complete focus on influenza vaccines and provides a unique opportunity for sponsors to meet and interact with key players in the influenza community.

Siena provides a richly historic backdrop to this meeting and the venue, the **Complesso Universitario San Niccolò**, is located close to the heart of the city. Planning is well underway for an expected 250 - 300 delegates.

The programme spans 3 days and has been designed to address all of the key areas of real interest to researchers and decision-makers in this field.

We are asking for your support for this important event. This prospectus should provide most of the information that you require and we are especially keen to encourage travel grants for our colleagues from economically-disadvantaged areas. In the meantime, we look forward to giving you a warm welcome in Siena.

On behalf of the Organising Committee

Rebecca Cox & **Emanuele Montomoli**

University of Bergen
Norway

University of Siena
Italy

You're invited
31 Mar – 2 Apr 2019
Siena, Italy

Join us for the inaugural isirv
influenza vaccines group meeting in
the charming, medieval city of Siena

For further details, contact
secretariat@isirv.org

Website: www.isirv.org

OVERVIEW

The last ISIRV meeting on this topic - Immune Correlates of Protection against Influenza: Challenges for Licensure of Seasonal and Pandemic Influenza Vaccines - was held in 2010 in Florida, USA. This conference builds on the idea and takes it further. It will serve to launch a new ISIRV influenza vaccines group and is the first in a planned series of meetings on this topic.

As next generation influenza vaccine technologies are developed and undergo clinical evaluation, new immunological assays and immune correlates of protection will be needed to estimate the immunogenicity and protective efficacy of these vaccines. This conference aims to bring together scientists from academia, industry and government public health, standardisation and regulatory agencies that develop and evaluate seasonal and pandemic influenza vaccines with the following objectives:

- to identify the most relevant immunological assays needed for evaluation of next-generation influenza vaccines
- to discuss the path forward for development, harmonization and standardization of new assays
- to develop strategies to investigate the immune correlates of protection for next-generation vaccines

The meeting will be attended by key opinion leaders and decision makers in influenza research/policy. Visit the website [here](#)

Organising Committee

Rebecca Cox	(Co-Chair) University of Bergen, Norway
Emanuele Montomoli	(Co-Chair) University of Siena, Italy
Othmar Engelhardt	National Institute for Biological Standards and Control, UK
Jackie Katz	Centers for Disease Control and Prevention (CDC), USA
Florian Krammer	Icahn School of Medicine at Mount Sinai, New York, USA
Diane J. Post	National Institute of Allergy and Infectious Diseases (NIAID), USA
Jerry P. Weir	Food and Drug Administration, USA

Sponsorship Opportunities

GOLD LEVEL

€12,000 +

- Acknowledged as Gold Level Sponsor in main session area
- Acknowledged as sponsor of Welcome Reception
- Company logo plus full-page colour *advertisement in Programme / Abstract book (back page, printed & digital)
- Company logo plus profile (200-word) and weblink on website
- 3 complimentary registrations
- Table top option with roller banner plus 2 conference bag *inserts

**Advertisement and bag inserts to be provided by sponsor and subject to approval by the Committee*

SILVER LEVEL

€7,000

- Acknowledged as Silver Level Sponsor in main session area
- Acknowledged as sponsor of conference bags (company logo)
- Company logo plus full-page colour *advertisement Programme / Abstract book (inside back page, printed & digital)
- Company logo plus profile (100-word) and weblink on website
- 2 complimentary registrations
- Table top option with roller banner plus 1 conference bag *insert

**Advertisement, bag insert to be provided by sponsor and subject to approval by the Committee*

BRONZE LEVEL

€4,000

- Acknowledged as Bronze Level Sponsor in main session area
- Acknowledged as supporter in Programme/Abstract book (company logo)
- Company logo plus profile (50-word) and weblink on website
- Table top to exhibit promotional materials
- 1 complimentary registration

Travel Fellowships €5,000 +

These awards will offer an opportunity to Young Investigators / early career scientists, from low to middle income countries* to attend this conference. The funds will be used to cover travel, accommodation and registration. The selection process and disbursement of awards will be managed by the Organising Committee.

- The awards will carry the company name
- The company's support will be fully acknowledged in the Programme/Abstract book and on the website
- 1 complimentary registration

*as defined by the World Bank

BRANDING OPPORTUNITIES

Exhibition Stand €3,000

A limited number of table top exhibition opportunities are available. These are in a prime location outside the main session hall. The company will be acknowledged on the conference website (logo)
